Dear Dr. Susan O'Neill,

Subject: Provincial Teacher Shortage

At the October 23 meeting of the British Columbia School Trustees Association's Provincial Council, councillors representing all 60 boards of education in B.C. passed the following motion:

"That BCSTA write a letter to all B.C. education degree granting institutes to request that the intake of education students be increased, and that copies of these letters be sent to the BC Teachers' Council, the Ministry of Education, and the Ministry of Advanced Education and Skills Training."

School districts throughout the province repeatedly report difficulties in recruiting new teachers. While BCSTA and its membership are appreciative of Simon Fraser University's dedication to supporting public education, these ongoing staffing shortages require immediate and collaborative attention to ensure that student learning outcomes are not negatively impacted. BCSTA recognizes that solving the teacher shortage is a complex issue that goes beyond simply opening the doors to more students. We are requesting that you collaborate with both the Ministry of Advanced Education and Skills Training and the Ministry of Education to find ways to increase the number of seats allocated to B.C. institutions that offer teaching programs.

Thank you for considering this request on behalf of our members and the students they serve.

Sincerely,

Stephanie Higginson
